Education

Lovely Professional University

Bachelor of Engineering in Computer Science **CGPA - 6.90**

Aug. 2023 – May 2027

Punjab, India

India International School, Asansol

Higher Secondary Examination (CBSE) **Percentage - 77 %**

2021 – 2023

West Bengal, India

St. Patrick's Higher and Secondary School, Asansol

Secondary School Certificate (ICSE) **Percentage - 86.8 %**

2021

West Bengal, India

Technical Skills

Languages: C++, Python, Java, SQL, HTML, CSS, JavaScript

Libraries and Frameworks: React.js, CSS, Node.js

Tools and OS: Nmap, Wireshark, MySQL, Linux, Windows, MS Office

Coursework: Data Structures and Algorithms, Object-Oriented Programming, DBMS

Soft Skills: Communication Skills, Team Player, Time Management, Adaptability

Projects

ZAP Eats - Food Ordering System | *HTML, CSS, JS, Python, MySQL* | [Code](#)

June 2025

- Developed a dynamic food ordering platform with real-time tracking to enhance user experience.
- Built a responsive HTML/CSS front-end with a secure Python-MySQL backend for authentication and order history.
- Integrated admin tools for menu management, order control, and performance monitoring.
- Applied robust data validation for secure, efficient, and error-free operations.

GreenPulse - Sustainable Development ChatBot | *HTML, JavaScript, CSS* | [Code](#) | [Link](#)

July 2025

- Created a responsive website to educate users on sustainable goals using HTML, CSS, and JS.
- Integrated a Gemini API chatbot for real-time Q/A.
- Enhanced engagement with dynamic, accessible design promoting eco-friendly choices.

Fly Game | *Python, HTML, CSS, JS* | [Code](#)

April 2025

- Developed a simple 2D flying game using Python, HTML, CSS, and JavaScript.
- Designed a character with vertical movement to avoid obstacles.
- Added interactive controls and smooth animations for gameplay.
- Implemented basic collision detection to enhance user experience.

Achievements

- **Finalist** of Two CTFs — Competed with around 100 team
- 1st in the Debut CTF [Link](#)
- 2nd in the follow-up CTF
- Solved over **200+** problems in C++ across various coding platforms

Certifications

- The Bits And Bytes of Computer Networking - Google
- Privacy and Security in Online Social Media - Nptel
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI LLM - Infosys
- Computational Theory: Language Principle and Finite Automata Theory - Infosys
